This request includes funding for ongoing rate development for expanded regions, fifteen (15) FTE to administer the additional managed care population, ongoing MMIS programming costs, and enrollment broker costs. One-time funds are also requested for fee-for-service claims runout. Claims Run-Out: Due to the lag in the time between date of service and the date a provider bill for services, the state estimates it will pay \$109 million in fee-for-service (FFS) claims for the population moving to managed care for the period prior to managed care enrollment. The bulk of these costs will be paid within 6 months; however, payouts could continue up to 12 months.

Section 11.405 MO HealthNet Division – Pharmacy Program (Clinical Services) Management

Book 5, Page 115

This section provides funding for the contractor costs that support the Pharmacy and Clinical Services programs. Funding is used for cost containment initiatives and clinical policy decision-making to enhance efforts to provide appropriate and quality medical care to participants. The Division of Medical Services seeks to aid recipients and providers in their efforts to access the Medicaid program by utilizing contractor resources effectively.

Section 11.425 MO HealthNet Division – Electronic Health Records Incentive

Book 5, Page 160

This section provides funding for Missouri’s MO HealthNet Electronic Health Record (EHR) Incentive program as established by the American Recovery and Reinvestment Act. The EHR Incentive program provides incentive payments for the adoption and meaningful use of certified EHR technology. These incentives are based on the provider’s participation in Medicaid programs. The EHR Incentive program provides payments to eligible professionals and eligible hospitals for efforts to adopt, implement, or upgrade to certified EHR technology. Under the program, eligible professionals can receive up to \$63,750 in incentive payments over 6 years and hospital amounts are based on an established formula. The funding for this program was added to the budget in FY 2012

An increase is needed in the pharmacy program due to increased utilization and increased cost of specialty drugs. An estimated Specialty PMPM rate increase of 19.275% is expected in FY17. This is due to the higher proportion of persons with disabilities in Medicaid and the fact that there are very few generic options available for specialty drugs. Specialty drugs often target rare conditions, have limited availability and relatively high costs, require complicated regimens, and may involve uncoventional manufacturing processes.

Section 11.435 continued MO HealthNet Division – Pharmacy Medicare Part D-Clawback

Book 5, Page 192

This section provides funding for a transfer from the Pharmacy section for “Clawback” payments to the federal government. Part D of the Federal Medicare Prescription Drug Act requires states to pay Medicare a portion of the cost of Part D drugs attributable to what would have been paid for by the State absent the Part D drug benefit. Beginning January 1, 2006, the state is required to pay Medicare 90% of an average per person drug cost for each of the state’s full-benefit dual eligible individuals for each month.

Legal Basis: Medicare Prescription Drug, Improvement, and Modernization Act (MMA) of 2003.

Funding needed for an estimated 4% rate increase beginning in January 2017. The Medicare Prescription Drugs Act requires states to pay Medicare a portion of the cost of Part D drugs attributed to what would have been paid for by the state without the Part D drug benefit. The Clawback rate is set by CMS in January of each year. This 4% increase represents an increase for January through April 2017. The Clawback payment is made to the federal government once per month.

The Medicare Buy-In program allows states to enroll certain groups of eligible individuals in the Medicare Part A (hospital insurance) and Part B (medical insurance) programs and pay their premiums. This allows the state to realize cost savings through Medicare paying the majority of medical costs before Medicaid reimburses for the services. This request funds anticipated Part A and Part B premium increases.

Section 11.475 MO HealthNet Division – Long-Term Care Upper Payment Limit (UPL) transfer to GR

Book 5, Page 578

This section establishes a partnership between privately owned long-term care facilities and publicly operated long-term care related services, such as county nursing homes, which allows Missouri to generate new federal revenue by having private nursing homes assume financial responsibility for publicly funded long-term care services and supports. This shift in financial responsibility frees up public funding that can be used to access additional federal matching funds. The new dollars can be used to offset general revenue, increase reimbursement to providers of long-term care and supports, as well as assist local governments to develop and maintain its long-term service delivery system.

Federal law requires rates to be actuarially sound. Funding is needed for a contracted 7.7% cost increase of the existing NEMT contract. NEMT services are provided for MO HealthNet participants who do not have access to free transportation to scheduled MO HealthNet-covered services. The state contracts with a statewide broker and pays monthly capitation payments for each NEMT participant based on eligibility group and which of the four regions of the state the participant resides.

Section 11.485 continued MO HealthNet Division – Community Health Access Programs

Book 5, Page 373

New section created by the House that provides state matching funds (50/50 State/Local Match) for Community Health Access Programs (CHAPs) focused on meeting the health care needs of their communities and reducing the costs incurred by health care providers when patients inappropriately access health care resources through Emergency Medical Services (EMS) or Emergency Departments (ED). This program will be managed by providers that either operate their own EMS or partner with a local ambulance district(s). Target population is ages 17-64 that, after receiving a full medical screening exam, are deemed to have a non-emergency medical condition that can be more appropriately treated by a primary care provider in a health care home or community resource center.

Section 11.490 MO HealthNet Division – Complex Rehabilitation Technology Products

Book 5, Page 381

New section created by the House that provides funding for complex rehabilitation technology (CRT) items classified within the Medicare program as of January 1, 2014 as durable medical equipment that are individually configured for individuals to meet their specific and unique medical, physical, and functional needs and capacities for basic activities of daily living and instrumental activities of daily living identified as medically necessary to prevent hospitalization and/or institutionalization of a complex needs patient. Such items shall include, but not be limited to, complex rehabilitation power wheelchairs, highly configurable manual wheelchairs, adaptive seating and positioning systems, and other specialized equipment such as standing frames and gait trainers. The related Healthcare Common Procedure Coding System (HCPCS) billing codes include, but are not limited to pure complex rehabilitation technology codes and mixed complex rehabilitation technology codes which contain a mix of complex rehabilitation technology products and standard mobility and accessory products.

This section provides funding for HCPCS codes defined by the National Coalition for Assistive and Rehab Technology (NCART) as CRT to MO HealthNet allowables as of 04/01/2010. HCPCS codes adopted after 04/01/2010 shall be reimbursed at the current Medicare allowable. Manually priced items shall be reimbursed at ninety percent (90%) of the Manufacturer's Suggested Retail Price (MSRP) for manual priced manual and custom wheelchairs and accessories and ninety five (95%) of MSRP on manually priced power mobility devices and accessories

MO HealthNet Division – Managed Care

Book 5, Page 392

The Division of Medical Services (DMS) operates an HMO-style managed care program, Managed Care Plus (MC+). Health plans contract with the state and are paid a monthly capitation payment for providing services for each enrollee. Participation in MC+ is mandatory for certain Medicaid eligibility groups within the regions in operation. There are three eligibility groups: (1) TANF Adults and Children, Refugees, Medicaid for Children, and 1115 Waiver Children; (2) Medicaid for Pregnant Women and 1115 Waiver Adults; and (3) children in state care and custody. Those recipients who also receive SSI disability payments have the option of choosing to receive services on a fee-for-service basis.

This request includes funding for ongoing rate development for expanded regions, fifteen (15) FTE to administer the additional managed care population, ongoing MMIS programming costs, and enrollment broker costs. One-time funds are also requested for fee-for-service claims runout. Claims Run-Out: Due to the lag in the time between date of service and the date a provider bill for services, the state estimates it will pay \$109 million in fee-for-service (FFS) claims for the population moving to managed care for the period prior to managed care enrollment. The bulk of these costs will be paid within 6 months; however, payouts could continue up to 12 months.

DEPARTMENT OF SOCIAL SERVICES
MO HealthNet Division – Managed Care Expansion

Book 5, Page 408

This section includes funding for the expansion of Managed Care statewide for those population groups currently in Managed Care. The Division of Medical Services (DMS) operates an HMO-style managed care program, Managed Care Plus (MC+). Health plans contract with the state and are paid a monthly capitation payment for providing services for each enrollee. Participation in MC+ is mandatory for certain Medicaid eligibility groups within the regions in operation. There are three eligibility groups: (1) TANF Adults and Children, Refugees, Medicaid for Children, and 1115 Waiver Children; (2) Medicaid for Pregnant Women and 1115 Waiver Adults; and (3) children in state care and custody. Those recipients who also receive SSI disability payments have the option of choosing to receive services on a fee-for-service basis.

An increase is needed in the pharmacy program due to increased utilization and increased cost of specialty drugs. An estimated Specialty PMPM rate increase of 19.275% is expected in FY17. This is due to the higher proportion of persons with disabilities in Medicaid and the fact that there are very few generic options available for specialty drugs. Specialty drugs often target rare conditions, have limited availability and relatively high costs, require complicated regimens, and may involve uncoventional manufacturing processes.

Section 11.560 MO HealthNet Division – Show-Me Healthy Babies Program

Book 5, Page 532

This section would provide funding for approximately 1,800 – 1,850 unborn children up to 300% of the Federal Poverty Level (FPL) as authorized by Senate Bill 754 (2014). This program provides all prenatal care and pregnancy-related services that benefit the health of the unborn and promote healthy labor, delivery, and birth. For an unborn child to be eligible for enrollment in the program, the mother of the child must not be eligible for coverage under the Medicaid Program and must not have access to other affordable health care coverage. Coverage for the unborn child is for the period of conception to birth and shall continue up to one year after birth. Pregnancy-related and postpartum coverage for the mother shall begin on the day the pregnancy ends and extend through the last day of the month that includes the sixtieth day after pregnancy ends.
